Subject: **CERTIFICATION OF LEGAL RELATIONSHIP**

Dear Sirs,

This is to certify that Margalla Buildings (Pvt.) Ltd. ("**Margalla Buildings**") is a wholly owned subsidiary of Telenor Pakistan (Pvt.) Ltd. ("**Telenor Pakistan**") and undertakes various construction and real estate related activities for and on behalf Telenor Pakistan including *inter alia* the design and construction of a new office premises for operations of Telenor Pakistan.

In this regard it is certified that Margalla Buildings has awarded main building foundation piling works ("**Contract**") to Deepwell Corporation Pvt. Ltd. ("**Deepwell**") and entered into a contract on 8th Oct, 2013. Furthermore, Deepwell is required to furnish a performance bond as per the terms of the Contract and it is certified that Deepwell is Telenor Pakistan's duly appointed contractor for the purposes of procurement and issuance of such performance bond.

We remain available if any further clarity is required in this regard.

Kind regards,

A handwritten signature in black ink, appearing to read 'Vijay Kumar', is written over a horizontal line.

For and behalf of
Telenor Pakistan (Pvt.) Ltd.

GEOTECHNICAL INVESTIGATIONS
Letter of Award / Acceptance
Laboratory Testing

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 53,919/- (Rupees fifty three thousand nine hundred and nineteen only) subject to actual soil investigations to be carried out.

2. The award is subject to the following terms and conditions:

- (a) NESPAK's representative at site shall be called the "Engineer".
- (b) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (c) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (d) The total work (laboratory testing) must be completed in 2 (two) weeks time following its commencement, after receipt of samples.

Mr. Shehryar Riaz
Executive Director

132-A, Peshawar Road, Risalpur

Dear Mr. Shehryar Riaz

Ref.: Order to Commence,

With reference of the Subcontract on Geotechnical Field Investigations made on September 13th and signed between DEEPWELL Corporation (Pvt.) Ltd. and Fichtner GmbH we hereby issue the

Order to Commence

the services in accordance to the general and particular conditions under the above Contract. Upon receipt of this Order to Commence and in view of having received the Advance Payment Guarantee and the Performance Bond we facilitate the first instalment of the advance payment as defined in the Contract. As agreed the second instalment of the advance payment is due after full mobilization at site.

As agreed during our recent meetings we kindly request you to mobilize to be in the position to start geophysical field investigations on October 20th, 2007. Our Geologists will be at site for supervision of the works and detailed instruction starting from October 20th.

For sake of completeness of contract requirements we request submission of the CV of the Geologist in charge.

Looking forward to a successful co-operation
Yours Sincerely,

Sincerely yours

Dr. Jorg Grossmann

GEOTECHNICAL INVESTIGATIONS
Letter of Award / Acceptance
Laboratory Testing

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 53,919/- (Rupees fifty three thousand nine hundred and nineteen only) subject to actual soil investigations to be carried out.

2. The award is subject to the following terms and conditions:

- (a) NESPAK's representative at site shall be called the "Engineer".
- (b) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (c) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (d) The total work (laboratory testing) must be completed in 2 (two) weeks time following its commencement, after receipt of samples.

3. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
4. The approved laboratory where testing is to be carried out will be pursued by you for timely completion of the testing. You shall be responsible for providing the laboratory test results to us, with in the contract period.
5. If you fail to achieve completion of the work within the prescribed time, then you shall pay to us as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
6. An amount of 80% of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.
7. You are therefore required to mobilize at the subject site on or before January 09, 2008, so as to start work, under instructions of Engineer.
8. The Letter of Award / Acceptance together with the documents referred under Paragraph (1) shall constitute binding contract between us.

We would appreciate your immediate acceptance of this Letter of Award / Acceptance by returning one copy after affixing your signature in the space provided below.

Letter of Award / Acceptance
Field Investigation-II

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 147,600/- (Rupees one hundred forty seven thousand and six hundred only) subject to actual soil investigations to be carried out.

2. The award is subject to the following terms and conditions:

- (a) NESPAK's representative at site shall be called the "Engineer".
- (b) You shall strictly abide by the technical specifications and instructions of the Engineer in carrying out the site investigations and taking / preservation of samples. All the field work shall be carried out in accordance with the latest international standards such as ASTM and / or BS.
- (c) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (d) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (e) You shall be responsible for providing the coordinates and elevations of boreholes. The coordinates and elevations shall have to be provided to NESPAK before completion of investigations at site.

- (f) All boreholes shall be backfilled as directed by the Engineer.
(g) The field work must be completed in 1 (one) week time. Your machinery and resources to be mobilized shall be sufficient to meet this target.

3. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
4. If you fail to achieve completion of the work within the prescribed time, then you shall pay to us as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
5. An amount of 80% of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.
6. You are therefore required to mobilize at the subject site on or before January 08, 2008, so as to start work, under instructions of Engineer.
7. The Letter of Award / Acceptance together with the documents referred under Paragraph (1) shall constitute binding contract between us.

132-A, Peshawar Road, Risalpur

Dear Mr. Shehryar Riaz

Ref.: Order to Commence,

With reference of the Subcontract on Geotechnical Field Investigations made on September 13th and signed between DEEPWELL Corporation (Pvt.) Ltd. and Fichtner GmbH we hereby issue the

Order to Commence

the services in accordance to the general and particular conditions under the above Contract. Upon receipt of this Order to Commence and in view of having received the Advance Payment Guarantee and the Performance Bond we facilitate the first instalment of the advance payment as defined in the Contract. As agreed the second instalment of the advance payment is due after full mobilization at site.

As agreed during our recent meetings we kindly request you to mobilize to be in the position to start geophysical field investigations on October 20th, 2007. Our Geologists will be at site for supervision of the works and detailed instruction starting from October 20th.

For sake of completeness of contract requirements we request submission of the CV of the Geologist in charge.

Looking forward to a successful co-operation
Yours Sincerely,

Sincerely yours

Dr. Jorg Grossmann

Our reference # 08A87

Reference Letter

This is to introduce Deepwell Corporation (Pvt.) Ltd., which has worked with us on the project named al-Qadir Heights, 1 Babar Block, New Garden Town, Lahore, Pakistan, in 2006.

The main project was a multi-storeyed reinforced concrete commercial building, for which our firm was the structural engineer.

The project component awarded to Deepwell, after competitive bidding, was excavation and shoring for the basements of the main building. The shoring comprised 24" diameter reinforced concrete bored piles. The boring of the piles was undertaken using crane-mounted kelly drive, with KH-100 and TH-55. The piles were supported by inclined post-tensioned grouted and post-grouted tie-backs.

The excavation quantity was around 0.75 million cubic feet. The total pile drilling was around 7,500 linear feet and the total length of tie-backs was around 12,000 feet. Each tieback was approximately 50 feet deep into the soil, with lock-up load of 60 Kips.

The work was successfully executed and finally tested to fully meet the laid down standards.

We found the management and project team of Deepwell to be professional, honest and hardworking.

We have no hesitation in recommending Deepwell for similar projects in future.

Subject: Lahore-Islamabad Motorway Project
Sub Contractor Works

Dear Sir,

Today, I can proudly state that Motorway has witnessed its celebrated Opening on 26 Nov 1997 by Honourable Prime Minister of Pakistan and it is going to be fully operative in all respects including its own revenue collection.

Completion of Motorway by the scheduled date is praiseworthy achievement in general for Daewoo Corporation and its work force and in particular for our Sub Contractors, without whose participation this enormous task could not have been accomplished.

An important segment of Motorway constitutes Section-I, which is domain of my responsibility. I acknowledge that your association with Section-I as Sub Contractor had been significantly contributory to timely completion of the tasks. I congratulate you that you have performed your share of responsibilities upto my satisfaction.

Motorway is threshold to growing development and prosperity of Pakistan. Your contribution through performance of your assignments is matter of pride.

Once again I appreciate your efforts and wish to compliment you on your achievements.

Yours Sincerely,

M. R. JO
General Manager

Dear Mr. Shehryar Riaz

Ref.: Order to Commence,

With reference of the Subcontract on Geotechnical Field Investigations made on September 13th and signed between DEJ.PWELL Corporation (Pvt.) Ltd. and Fichtner GmbH we hereby issue the

Order to Commence

the services in accordance to the general and particular conditions under the above Contract. Upon receipt of this Order to Commence and in view of having received the Advance Payment Guarantee and the Performance Bond we facilitate the first instalment of the advance payment as defined in the Contract. As agreed the second instalment of the advance payment is due after full mobilization at site.

As agreed during our recent meetings we kindly request you to mobilize to be in the position to start geophysical field investigations on October 20th, 2007. Our Geologists will be at site for supervision of the works and detailed instruction starting from October 20th.

For sake of completeness of contract requirements we request submission of the CV of the Geologist in charge.

Looking forward to a successful co-operation
Yours Sincerely,

Sincerely yours

Dr. Jörg Grossmann

GEOTECHNICAL INVESTIGATIONS
Letter of Award / Acceptance
Laboratory Testing

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 53,919/- (Rupees fifty three thousand nine hundred and nineteen only) subject to actual soil investigations to be carried out.

2. The award is subject to the following terms and conditions:

- (a) NESPAK's representative at site shall be called the "Engineer".
- (b) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (c) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (d) The total work (laboratory testing) must be completed in 2 (two) weeks time following its commencement, after receipt of samples.

3. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
4. The approved laboratory where testing is to be carried out will be pursued by you for timely completion of the testing. You shall be responsible for providing the laboratory test results to us, with in the contract period.
5. If you fail to achieve completion of the work within the prescribed time, then you shall pay to us as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
6. An amount of 80% of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.
7. You are therefore required to mobilize at the subject site on or before January 09, 2008, so as to start work, under instructions of Engineer.
8. The Letter of Award / Acceptance together with the documents referred under Paragraph (1) shall constitute binding contract between us.

We would appreciate your immediate acceptance of this Letter of Award / Acceptance by returning one copy after affixing your signature in the space provided below.

Letter of Award / Acceptance

Field Investigation-II

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 147,600/- (Rupees one hundred forty seven thousand and six hundred only) subject to actual soil investigations to be carried out.
2. The award is subject to the following terms and conditions:
 - (a) NESPAK's representative at site shall be called the "Engineer".
 - (b) You shall strictly abide by the technical specifications and instructions of the Engineer in carrying out the site investigations and taking / preservation of samples. All the field work shall be carried out in accordance with the latest international standards such as ASTM and / or BS.
 - (c) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (d) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (e) You shall be responsible for providing the coordinates and elevations of boreholes. The coordinates and elevations shall have to be provided to NESPAK before completion of investigations at site.

3. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
4. The approved laboratory where testing is to be carried out will be pursued by you for timely completion of the testing. You shall be responsible for providing the laboratory test results to us, with in the contract period.
5. If you fail to achieve completion of the work within the prescribed time, then you shall pay to us as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
6. An amount of 80% of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.
7. You are therefore required to mobilize at the subject site on or before January 09, 2008, so as to start work, under instructions of Engineer.
8. The Letter of Award / Acceptance together with the documents referred under Paragraph (1) shall constitute binding contract between us.

GEOTECHNICAL INVESTIGATIONS

Letter of Award / Acceptance

Field Investigation-II

Dear Sir,

1. We are pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 147,600/- (Rupees one hundred forty seven thousand and six hundred only) subject to actual soil investigations to be carried out.
2. The award is subject to the following terms and conditions:
 - (a) NESPAK's representative at site shall be called the "Engineer".
 - (b) You shall strictly abide by the technical specifications and instructions of the Engineer in carrying out the site investigations and taking / preservation of samples. All the field work shall be carried out in accordance with the latest international standards such as ASTM and / or BS.
 - (c) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100% completion of work, provided the work is carried out to the entire satisfaction of Engineer.

- (d) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
- (e) You shall be responsible for providing the coordinates and elevations of boreholes. The coordinates and elevations shall have to be provided to NESPAK before completion of investigations at site.

- (f) All boreholes shall be backfilled as directed by the Engineer.
(g) The field work must be completed in 1 (one) week time. Your machinery and resources to be mobilized shall be sufficient to meet this target.

3. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
4. If you fail to achieve completion of the work within the prescribed time, then you shall pay to us as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
5. An amount of 80% of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.
6. You are therefore required to mobilize at the subject site on or before January 08, 2008, so as to start work, under instructions of Engineer.
7. The Letter of Award / Acceptance together with the documents referred under Paragraph (1) shall constitute binding contract between us.

We would appreciate your immediate acceptance of this Letter of Award / Acceptance by returning one copy after affixing your signature in the space provided below.

DEEPWELL Corporation (Pvt.) Ltd.

Mr. Shehryar Riaz
Executive Director

132-A, Peshawar Road, Risalpur

Dear Mr. Shehryar Riaz

Ref.: Order to Commence,

With reference of the Subcontract on Geotechnical Field Investigations made on September 13th and signed between DEEPWELL Corporation (Pvt.) Ltd. and Fichtner GmbH we hereby issue the

Order to Commence

the services in accordance to the general and particular conditions under the above Contract. Upon receipt of this Order to Commence and in view of having received the Advance Payment Guarantee and the Performance Bond we facilitate the first instalment of the advance payment as defined in the Contract. As agreed the second instalment of the advance payment is due after full mobilization at site.

As agreed during our recent meetings we kindly request you to mobilize to be in the position to start geophysical field investigations on October 20th, 2007. Our Geologists will be at site for supervision of the works and detailed instruction starting from October 20th.

For sake of completeness of contract requirements we request submission of the CV of the Geologist in charge.

Looking forward to a successful co-operation
Yours Sincerely,

Sincerely yours

Dr. Jorg Grossmann

To Whom It May Concern

This is to certify that M/S Deepwell Corporation (Pvt) Ltd. has completed under our Consultancy the Project of Excavation Protection System for I.T. Tower building located at Hali Road-Gulberg-Lahore.

Excavation Protection System consists of;

- 228 Nos. 24inch dia contiguous RCC bored Pile upto 94 ft depth executed by crane mounted Kelley Bucket drive rig KH-100 and TH-55 by dry boring method.
- Tie back Soil Anchors 1160 No. with varying lengths of 60 ft to 45 ft in 5-Rows with lockup load of 35 Tons, Post grouted and with RCC Anchor blocks.
- Excavation of around 2.0 million Cft upto 65' depth.
- Performance Test, Proof Test on Test Anchors upto 70Tons by third party.

Work was executed professionally by competent staff round the clock in accordance with specification under our Engineer's supervision.

We will be glade in recommending M/S Deepwell for similar Projects.

Our reference # 08A87

Reference Letter

This is to introduce Deepwell Corporation (Pvt.) Ltd., which has worked with us on the project named al-Qadir Heights, 1 Babar Block, New Garden Town, Lahore, Pakistan, in 2006.

The main project was a multi-storeyed reinforced concrete commercial building, for which our firm was the structural engineer.

The project component awarded to Deepwell, after competitive bidding, was excavation and shoring for the basements of the main building. The shoring comprised 24" diameter reinforced concrete bored piles. The boring of the piles was undertaken using crane-mounted kelly drive, with KH-100 and TH-55. The piles were supported by inclined post-tensioned grouted and post-grouted tie-backs.

The excavation quantity was around 0.75 million cubic feet. The total pile drilling was around 7,500 linear feet and the total length of tie-backs was around 12,000 feet. Each tieback was approximately 50 feet deep into the soil, with lock-up load of 60 Kips.

The work was successfully executed and finally tested to fully meet the laid down standards.

We found the management and project team of Deepwell to be professional, honest and hardworking.

We have no hesitation in recommending Deepwell for similar projects in future.

Subject: Lahore-Islamabad Motorway Project
Sub Contract Works

Dear Sir,

Today, I can proudly state that Motorway has witnessed its celebrated Opening on 26 Nov 1997 by Honourable Prime Minister of Pakistan and it is going to be fully operative in all respects including its own revenue collection.

Completion of Motorway by the scheduled date is praiseworthy achievement in general for Daewoo Corporation and its work force and in particular for our Sub Contractors, without whose participation this enormous task could not have been accomplished.

An important segment of Motorway constitutes Section-I, which is domain of my responsibility. I acknowledge that your association with Section-I as Sub Contractor had been significantly contributory to timely completion of the tasks. I congratulate you that you have performed your share of responsibilities upto my satisfaction.

Motorway is threshold to growing development and prosperity of Pakistan. Your contribution through performance of your assignments is matter of pride.

Once again I appreciate your efforts and wish to compliment you on your achievements.

Yours Sincerely,

M. R. JO
General Manager
Lahore-Islamabad Motorway Project
Section-I, Sheikhupura

- (e) You shall be responsible for providing the coordinates and elevations of boreholes/testpits. The coordinates and elevations shall have to be provided to NESPAK before completion of investigations at site.
- (f) All boreholes and testpits shall be backfilled as directed by the Engineer.
- (g) The field work must be completed in ten (10) days time. Your machinery and resources to be mobilized shall be sufficient to meet this target.
- (h) The total work (including field work and laboratory testing) must be completed within three (3) weeks time following its commencement, with mobilization at site.
4. In case of increased work load (if any) and subject to approval of the Engineer, the same BOQ rates as enclosed shall be applicable.
5. The approved laboratory where testing is to be carried out will be pursued by you for timely completion of the testing. You shall be responsible for providing the laboratory test results to NESPAK, within the contract period.
6. If you fail to achieve completion of the work within the prescribed time, then you shall pay to NESPAK as liquidated damages for such default and not as penalty, the sum of one percent (1%) per day of delay, to the maximum of the ten percent (10%) of the contract price.
7. An amount of 80 % of the cost of the field work shall be made upon completion of entire field work and submission of invoice by you. The remaining amount shall be paid upon submission of complete laboratory test results.

Letter of Award / Acceptance

Dear Sir,

1. Reference is made to the following:
 - i. Our Notice inviting bids bearing Ref 156-36/024/MI/01/1627 dated May-18, 2007 for the captioned project.
 - ii. Your bid submitted to NESPAK in response to the above notice vide letter No. DWCL/QUOTE/C-24/07 dated May 19, 2007.
2. NESPAK is pleased to hereby notify you of our acceptance of your bid submitted referred at Sr. No. 1 (ii) above for the subject work and award of the contract to you for an amount of Rs. 421,287/- (Rupees four hundred twenty one thousand two hundred eighty seven only) subject to actual soil investigations to be carried out.
3. The award is subject to the following terms and conditions:
 - (a) NESPAK's representative at site shall be called the "Engineer".
 - (b) You shall strictly abide by the technical specifications and instructions of the Engineer in carrying out the site investigations and taking / preservation of samples. All the field work shall be carried out in accordance with the latest International Standards such as ASTM and / or BS.
 - (c) The quantities given in the Bill of Quantities (BOQ) are estimated and provisional, and were given to provide a common basis for bidding. The actual quantum of work to be executed may be different from the one shown in the BOQ, annexed herewith.

The basis of payment shall be the actual work carried out and approved by the Engineer, as measured by the Contractor and certified by the Engineer and valued at the rates and prices as quoted by you in your bid.

Payment of the entire amount shall be made, upon submission of an invoice by you, upon 100 % completion of work, provided the work is carried out to the entire satisfaction of Engineer.
 - (d) You shall be responsible for the safe custody and transportation of samples as instructed by the Engineer, to an approved geotechnical testing laboratory at your own cost.
